

The image shows the interior of a large, modern building. The ceiling is made of light-colored wood slats, and the walls are also wood-paneled. There are several large, geometric, wireframe pendant lights hanging from the ceiling. The floor is made of large, light-colored tiles. In the background, there are stone pillars and large windows that offer a view of a green landscape and a body of water. The overall atmosphere is bright and airy.

THE
COOPERAGE

FUNCTIONS | WEDDINGS | CORPORATE

Situated on Anura Vineyards, The Cooperage is an exclusive architectural masterpiece of space and light, with contemporary industrial style finishes. The building comprises of stone, concrete, steel and are African wood with breath-taking 360 degree views of the Simonsberg mountain range, vineyards and water. As the name suggests, much like the work of a barrel cooper, The Cooperage is our hand-crafted, artisanal event space. The Cooperage has the ability to transform to your needs, whatever your event design may be.

CAPACITY

The Cooperage has been created in such a way as to accommodate anything from 40 to 300 guests seated, or, conservatively, up to 850 guests cocktail style, without compromising atmosphere, acoustics or use of space. The lawns surrounding The Cooperage are able to accommodate extensive temporary structures, should you require space for a very large event or festival. Anura Vineyards has parking capacity for up to 150 vehicles at a time.

COOPER'S BAR AND DECK

Included in the venue is Cooper's Bar - an elegant, suave and charismatic bar. Unique elements, such as wine barrels suspended from the ceiling, raw copper finishes and exposed light bulbs, makes this space ideal to use as is, with no décor required, for more intimate events.

Coopers Bar can be used with separation from the main event space and can accommodate 50 guests seated or 80 -100 cocktail style, and extends onto the expansive deck of The Cooperage.

FACILITIES

The Cooperage contains state-of-the-art restroom facilities with the capacity to accommodate 850 guests. The venue also offers a separate bridal change room and restroom, as well as wheelchair friendly restrooms.

The Cooperage contains an industrial style semi-equipped kitchen for outsourced catering, walk-in refrigeration and back access for service providers and staff restrooms.

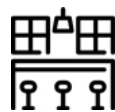

Ample parking close to the venue is available as well as a front door drop-and-go area, for valet parking or for car launch displays.

The front door of the venue is able to accommodate vehicle access. The Cooperage is well suited for car launches, with the ability to showcase up to 18 vehicles inside the venue.

INCLUDED IN THE COOPERAGE VENUE HIRE:

complimentary set-up and strike day

Bar furniture as set up during site visit

150 oak cross back chairs and 15 round tables
